

Connecting to the Group Classes

ATTENTION!

- 1)** At the moment the software used for the Group Classes is not fully compatible with tablet devices (***IPads, devices running Android OS***)! That's why we recommend using desktop or laptop computers while participating in a group class.
- 2)** Also we do request participants to use headphones instead of speakers! This prevents resonance echo which negatively impacts quality of the voice conferencing for ***all*** participants of a class.
- 3)** Before connecting to a class please ensure that your microphone/headphones are correctly configured and you've performed a test call already.

To connect to a group class please follow the steps below:

1. Sign in to Skype using the account provided by EnglishMania.

NOTE!

To participate in the Group Classes you need to use Skype ID provided by EnglishMania instead of your personal Skype ID. EnglishMania Customers Support Team will contact you 15-20mins before your class to share the ID/password details.

2. Open the following URL in your web browser:

http://english-mania.net/live_classes/group_classes/

3. Enter the password shared by EnglishMania before the class.

4. Click the **“Submit”** button (do NOT mix up with **“Login”**!).

5. Type your name and click "Set My Screen Name".

What is your name?

Mark

Set My Screen Name

After that you'll enter a conference room.
